DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Response filed 2/13/06 (accompanying the Amendment entered in the Request for Continued Examination filed 3/17/06), with respect to the rejection(s) of claim(s) 1-2, 4-7, 18-20, & 23-28 under 35 USC §103 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of 35 USC §112.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-2, 4-7, 18-20, & 23-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation "when an error has been detected, said controller issues to said image generator an order to execute an initialization or a reset" in claim 1, lines 9-10; claim 18, lines 11-12; and claim 23, lines 9-10 appears to contradict the recitation "when an error has been detected, said image forming

Art Unit: 2625

unit proceeds with an operation in progress without executing initialization and without executing reset" in claim 1, lines 11-13; claim 18, lines 13-15; and claim 23, lines 11-13, insofar as the recitations indicate that, when an error has been detected, an order is given that cannot be carried out.

Allowable Subject Matter

4. Because the current rejection under 35 USC §112 arises from recitations which appear to contradict one another, it is unclear whether claims 1-2, 4-7, 18-20, & 23-28 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
